

How Kent School Leveraged AP Automation to Transform the Business Office

▶ KENT SCHOOL

Nestled in the foothills of the Berkshire Mountains, Kent School offers over 100 years of tradition and innovation. The school was founded in 1906, and the same values that applied then apply now, which are instilling simplicity of life, directness of purpose, and self-reliance in the students who attend the school.

“

"You really want to implement Paymerang in your business office. Your team and vendors will thank you for it and your responsibilities every day will be lightened tremendously. It's been a life saver for our office."

~ **Business Manager**, Kent School

The Challenge

The Accounts Payable process at Kent was manual and time-consuming, relying on paper invoices going through interoffice mail, and ultimately making their way back to the business office to be paid. The process was inefficient, putting them at risk of payment fraud, incurring late fees, and draining significant resources every week.

The Solution

Kent embraced Paymerang's AP Automation Platform, implementing both Invoice and Payment Automation. The time it takes to receive, approve, and pay invoices has significantly decreased. Additionally, school budget approvers have the ability to log in and gain visibility into the status of invoices for their vendors. Kent School's business office staff are now able to focus on more student-facing activities and projects.

The Results

- ✓ **1,000+ Hours Saved**
each year by eliminating manual processes
- ✓ **Fast & Easy Implementation**
taking 10 hours or less of time
- ✓ **Faster payments to vendors**
- ✓ **Improved operational efficiency**
- ✓ **Significant cost savings**
